

Kalyan Bhuyan's Poem

Issue: Vol. IV, No. 2, August-October, 2025

River is there in the Sky

River is there in the sky
River dwells in the sky.

I am yearning
For a drop of water
A millennium old

A drop of tear
A patch of cloud
A shower of rain
A river
An ocean

Water tells tales of a millennium
Tales of men and civilizations

River dwells in the sky
River is there in the sky.
